American International Assurance Company (Bermuda) Limited

I have been working at AIA Hong Kong for the past 2 years. The company has a long and well-established business in Asia and is a market leader in Hong Kong providing a wide financial product range which includes protection, investment, MPF and group insurance.

I chose AIA Hong Kong as it offers an attractive reward scheme and career path, as well as comprehensive training which is provided by the Training Department. In addition, I also receive good support from my supervisor and the company. For example, the Worksite Marketing Department helps me to extend my network to explore business opportunities among the staff of SMEs.

Within the energetic work environment in AIA Hong Kong, I get to meet people from all walks of life, getting to know their culture, their needs and creating tailor-made solutions for them. One of the best parts about my job is I have flexible working hours and I get to decide on my own work schedule.

In my capacity as an Assistant Unit Manager, I am responsible for providing one-stop financial services to my clients, including risk management, cash flow management, investment and asset management. Despite my hectic schedule, I am able to maintain a balanced work and personal life.

My biggest career achievement so far is having achieved the Million Dollar Round Table (MDRT), the premier association of financial professionals, an international, independent association consisting less than 1% of the world's most successful life insurance and financial services professionals from 476 companies in 76 nations and territories.

I am looking forward to achieving greater heights with the company. Ultimately, my goal is to become a successful leader within the organisation and to keep on providing excellent service to my clients.
