Wing Hang Bank, Limited

I have been working with Wing Hang Credit Ltd for the past 12 years. I chose it as the starting point of my career as I was attracted to the massive learning opportunity and the open-minded corporate culture. Until today, I still enjoy the harmonious working environment here together with a young, energetic and willing to learn workforce. Their passion for work and drive for excellence truly inspires me.

Leading a team of 200 staff and 18 branches, I need to formulate business strategies to achieve business targets and to excel in business performance while, at the same time, expanding the market share and exploring new business opportunities. I feel very lucky and am thankful to Wing Hang Bank which has been providing the best platform for my development and learning.

In addition, the bank also provides me with ample opportunities to serve the community which also fulfils my personal interest. I joined the Hike for Hospice 2008 organised by the

Society for the Promotion of Hospice Care and the Green Power Hike for a Green Future organised by Green Power, and was awarded the first runner-up for both events. This is my way of achieving a work-life balance.

Transforming a new company into a well known and leading company in the consumer loan market is the greatest achievement in my career. I feel proud to be able to contribute to the continuous expansion of the bank's business and increasing popularity among the public.

I derive great satisfaction from my job and enjoy the numerous opportunities for personal growth and friendship. With the strong support of my team and that of other departments, I have every confidence to face the challenges ahead.
